*With stops to commemorate where women were last seen or found*

The Memorial March is an opportunity to come together to grieve the loss of our beloved sisters in the Downtown Eastside and to dedicate ourselves to justice. This event is organized and led by women and non-binary people because Indigenous women, girls, two spirit & trans people face physical, mental, emotional, and spiritual violence on a daily basis. All welcome. COVID-protocols: social distancing and masks required. Livestream available on youtube and facebook.
